Foreword

Caring for our environment is one of the great challenges facing Australians in this new century.

One of the most compelling environmental challenges facing Australia at present is to reverse the long-term decline in the quality and extent of our native vegetation.

Native vegetation is an integral component of sustainable agriculture and biodiversity conservation. Within New South Wales road reserves represent 5% of the land area and play an important role as corridors across a highly modified landscape and provide habitat for native plants and animals and linkages to other remnant areas.

Roadside vegetation also has many benefits for land management and contributes to sustainable agriculture by providing shelter for livestock and crops, minimising erosion, improving water quality and a vital grazing area for travelling stock.

The Junee Roadside Vegetation Survey is an important management tool for identifying the aims of local conservation values and incorporating concepts in planning of road maintenance. The survey has been partly funded by a grant from the Federal Government's Natural Heritage Trust and with a financial contribution from the Junee Shire Council.

By assisting this project, Junee Shire Council has shown foresight and demonstrated a commitment to the sustainable management of roadside vegetation.

I would like to thank the Council, the numerous volunteers and the contribution made by staff from other agencies for their assistance in preparing the survey, and in particular Council staff for their cooperative effort in this project.

Lorryn Williamson

Acknowledgements

The Junee Shire Roadside Vegetation Survey has been partly funded by a grant from the Federal Government's Natural Heritage Trust. The Natural Heritage Trust funds practical on ground works by local community groups that contribute to sustainable agriculture and conservation of Australia's unique biological diversity.

Junee Shire Council has demonstrated a commitment to sustainable management of roadside vegetation by supporting the survey and providing financial contribution.

The survey of over 800 kilometres of roadside vegetation within Junee Shire was completed with the assistance of volunteers Anna Howard, Emma Cuffe, Brian Beasley, Marjorie Cochrane, Steve Holliday, Prue Buckley, Kevin Harris, Stephen Bruce and Matt Hurst under the leadership of Greening Australia staff Will Howard and James Smith.

Council staff members Sheree Murray and Ray Sims assisted with the collection and compilation of survey data. Other Council staff Adam Wakeman, Mick Guthrie and Peter Harris together with Councillors Jill Macaulay and Robin Cuttle attended a tour of roadsides within the Shire, providing an opportunity to discuss management practices for the maintenance of native vegetation.

Editorial assistance has been provided by Simon May (NSW Rural Fire Service), Ray Mooney (Department of Land and Water Conservation), Pat Murray, Sue Davies and Lynne McMahon (Greening Australia).

INTRODUCTION

1.1 The importance of roadside vegetation

Box woodlands that once covered much of the fertile wheat-sheep belt of south eastern Australia have been extensively cleared for agricultural activities. On the fertile soils and lower slopes of the South West Slopes it is estimated that 98% of the former range of Yellow Box (*Eucalyptus melliodora*) woodlands has been cleared for agriculture (Sheahan, 1998). Much of the remaining vegetation is in a degraded condition. Across Eastern Australia less than 0.1% of the original Grassy White Box Woodland is in near natural condition (Prober and Thiele, 1995, 1999). Importantly, good quality examples of these vegetation communities are found within some road reserves, and represent a more diverse range of vegetation communities than those in formal conservation areas.

Most remnant vegetation communities are now restricted to roadsides, travelling stock reserves, State Forests, Nature Reserves and National Parks. Throughout New South Wales, the network of road reserves represents about 5% of the land area, an area equivalent to that covered by National Parks. Currently in the South West Slopes region less than 1% of the original extent of native vegetation is managed under formal reserve systems.

Roadside reserves are important as they form corridors across the highly modified landscape, provide habitat for native plants and animals and linkages to other remnant areas. Roadside vegetation also has many positive values for land management. It contributes to sustainable agriculture by providing shelter for livestock and crops, preventing erosion, improving water quality, lowering water tables and thus helping reduce salinity, providing a buffer from weed invasion and grazing for travelling stock.

Roadside vegetation is a valuable educational resource as it is prominent and easily accessible. These areas are often used by amateur birdwatchers, wildflower enthusiasts, school and university students and botanical researchers for environmental studies.

Roadside reserves are a valuable source of native plant seed for revegetation projects, and are a guide for revegetation planning.

The roadside environment has many social values. It often contains significant cultural or historical items such as survey marks, bridges, rest areas and Aboriginal scar trees. The natural roadside vegetation contributes to the aesthetic appeal of the region and provides a pleasant environment in which to live and work.

1.2 The Junee Roadside Vegetation Survey

The Junee Shire Roadside Vegetation Survey was initiated by members of the community, who sought to work with Junee Shire Council to identify, protect and enhance native vegetation throughout the Shire.

The expectations of the community for conservation may conflict with the obligations of Council to maintain roads. Concern had been expressed over the impact on native vegetation of some roadside management practices employed by Council. In 1999 a meeting between Will Howard, a concerned member of the community, and Council staff identified an opportunity to work together to produce an inventory of roadside vegetation and management guidelines to ensure the preservation of this valuable natural asset.

Financial support was sought from the Natural Heritage Trust to fund the project. Although initially unsuccessful, persistence by Council was rewarded with a grant in 2000-2001.

Through the vegetation survey and management guide, Council sought to:

- Classify the conservation value of roadside vegetation.
- Develop management guidelines to maintain and enhance the native vegetation under Council control.
- Ensure management of roadside vegetation is consistent with statutory requirements, other land managers, and community expectations.
- Encourage the community and adjoining landholders to help manage and enhance the roadside environment.

Following a public tender process Greening Australia NSW was engaged to conduct the vegetation survey in August 2001.

Bethungra Hills from Ironbong Road

1.3 Responsibility for road reserve management

Management of road reserves is defined by a number of State Government Acts. Local government is responsible for the management of road reserves under its care and control, as set out in the **Roads Act, 1993**.

Section 145 of the Roads Act, 1993 defines the following road classes:

- Council Public Roads as vested in the Local Government
- Crown Public Roads as vested in the Crown
- Freeways as vested in the Roads and Traffic Authority

Public Roads may be either

- Formed in general terms under the control of Council
- Unformed in general terms under the control of the Department of Land and Water Conservation

Section 5 of the Roads Act, 1993 states:

“A member of the public is entitled, as of right, to pass along a public road (whether on foot, in a vehicle or otherwise) and to drive stock or other animals along the public road”

Section 88 of the Roads Act, 1993 states:

“A roads authority may, despite any other act or law to the contrary, remove or lop any tree or other vegetation that is on or overhanging a public road if, in its opinion, it is necessary to do so for the purpose of carrying out road work or removing a traffic hazard”

Any roadside management activities must be undertaken with regard to the **Native Vegetation Conservation Act 1997**. This act is aimed at:

- Preventing inappropriate clearance of native vegetation;
- Sustainably managing native vegetation that remains;
- Preventing further economic loss from unsustainable clearing & land degradation;
- Encouraging revegetation and rehabilitation of land with appropriate native vegetation; and
- Streamlining native vegetation management.

Under the **Rural Fires Act 1997**, a public authority has a duty to take measures to prevent the occurrence of bush fires on land under its control and is responsible for the costs incurred. The operation of other responsibilities under this act is discussed further in the Management Guide section of this report.

The **Noxious Weeds Act 1993** defines the weeds that are declared noxious, the control categories for those weeds, and the responsibilities of land managers for weed control.

With regard to road reserves:

- An occupier of land is responsible for weeds on land they are occupying

- A public authority that is the occupier must control weeds on that land to the extent necessary to prevent weeds from spreading to adjoining lands
- A local control authority (e.g. Council) must control weeds on roads to the extent necessary under the category for that weed (Section 14)
- Any public road enclosed with adjoining lands is considered to be occupied by that person (Section 17)

The **Rural Lands Protection Act 1998** provides for travelling stock routes and travelling stock reserves along public roads. Under the Act, Rural Lands Protection Boards must prepare Function Management Plans for reserves under their control (Sections 44 & 45). The plans are to include conservation values. A Board may remove, fell, or destroy timber from a reserve under its control but will need to reference National Parks and Wildlife Service or State Forests of NSW in most cases (Section 89). Rural Lands Protection Boards are required to control noxious weeds as a public authority under the Noxious Weeds Act.

1.4 Junee Shire – an overview

Situated midway between Melbourne and Sydney on the western extremity of the South West Slopes region of New South Wales, Junee Shire encompasses an area of 2031 square kilometres in a predominantly fertile, undulating landscape. Major geographic features are the Bethungra Hills to the north east of the Shire, and the Murrumbidgee River which forms the Shire's south eastern boundary.

Soils of the Junee area are generally red podzolic with a granite base. The average annual rainfall is 532mm but varies across the Shire with the north western portion significantly drier than the southern areas. The median summer maximum temperature is 31.3°C and the winter median minimum is 2.6°C.

Junee Shire has a population of 5839 with four villages in addition to the major township of Junee. These urban areas occupy approximately 5 square kilometres of the Shire, with rural residential land covering approximately 4 square kilometres.

Gross value of agricultural commodities produced in Junee Shire is in the order of \$275 million annually. Cereals, canola and pasture seeds are the main crops, and the Shire is a major producer of prime lamb, wool and beef. Agricultural diversification is increasing with products such as emu, llama, lavender, olives, pulse crops, nuts and niche marketed meats.

1.5 Survey Methodology

The standard survey method developed by the NSW Roadside Environment Committee was used for the Junee Shire survey. This method has been employed by a number of Shires throughout the region. It is designed to enable survey staff and volunteers to consistently collect and record data over vast lengths of road from varying roadside vegetation communities.

The survey technique aims to record the main indigenous and introduced plant species, wildlife habitat quality, and potential damage by management practices. A broad conservation value is then assigned to roadsides according to the relative condition of the native vegetation. As this is a rapid survey method, only those plant species easily identified from a moving vehicle are recorded. More comprehensive

assessments were conducted in several areas of high conservation value. Further botanical surveying of these areas may be warranted in the future.

Assessment by this technique provides a snapshot of the health of roadside vegetation at the time of survey. The conservation status of any roadside may change over time depending on how it is managed.

Surveying was conducted from October to December 2001 by Greening Australia staff with assistance from local volunteers. Spring to early summer is considered the best period to undertake surveying as many plant species are flowering at this time, making plant identification easier.

The categories of roadside vegetation are divided into 'low', 'medium' and 'high' conservation value. High conservation value roadsides contain good representation of overstorey and understorey species, few if any introduced plants, wildlife habitat and reasonable regeneration, occurring within a road reserve at least six metres wide.

Medium conservation roadsides are partially modified, have higher weed populations and often lack understorey. Some wildlife habitat is provided, although to a lesser extent than in high conservation value areas.

Low conservation roadsides will usually have isolated trees, little or no understorey, little or no regeneration, a large quantity of introduced plants within a reserve of five metres or less in width.

The term conservation value is used in this context as representative of the quality of native vegetation present and does not suggest that a roadside with low conservation value will have no plants of conservation merit within it.

The assessment sheet, at Appendix C, is divided into three sections; the header (A), scored boxes (B to F) and an unscored section (G to M). Information to locate each roadside section is recorded in the header. Scored boxes are completed to determine the conservation value. The unscored section provides information which is useful to road managers, but is not required for determining a conservation value.

Bethungra Waterworks Road – an example of a high conservation value roadside

Macaulays Lane – an example of a medium conservation value roadside

Wyoming Lane – an example of a low conservation value roadside

SURVEY RESULTS

2.1 Roadside vegetation in Junee Shire

The roadside vegetation survey assessed 886 kilometres of road reserves within Junee Shire. Appendix A lists all the roads assessed, with details of road length, road type, conservation value, native plants, introduced plants and comments.

Survey results reveal that within Junee Shire:

- 12% of roadsides are of high conservation value
- 35% of roadsides are of medium conservation value
- 53% of roadsides are of low conservation value

Conservation values were assessed separately for each side of the road reserve, and these percentages represent an average of both sides.

A description of each section of road surveyed, including conservation value, species identified and management comments is located at Appendix A.

2.2 Species Recorded

The survey identified 131 native plant species, and 97 introduced plants (including exotics and non-local natives).

No rare or threatened native species were located, however a number of locally significant species were recorded. These are identified in Section 2.3. Declared noxious weeds, with their appropriate control category, are identified in Section 2.4.

It is possible that other native plants present in the Shire have not been identified during the survey, either due to their ephemeral nature or the limitations of the survey method.

2.3 Native Plants

Plants marked as 'significant' represent regionally or locally rare species. The numbers and distribution of these plants have been reduced since European settlement.

Common Name	Botanical Name	<u>Significant species</u>
Amulla	<i>Eremophila debile</i>	
Apple Box	<i>Eucalyptus bridgesiana</i>	
Austral Cranesbill	<i>Geranium solanderi</i>	
Austral Indigo	<i>Indigofera australis</i>	X
Australian Trefoil	<i>Lotus australis</i>	X
Bent-leaf Wattle	<i>Acacia flexifolia</i>	X
Bindweed	<i>Convolvulus erubescens</i>	
Black Cypress Pine	<i>Callitris endlicheri</i>	
Blakely's Red Gum	<i>Eucalyptus blakelyi</i>	
Bluebell	<i>Wahlenbergia sp.</i>	
Bottlewashers	<i>Enneapogon nigricans</i>	
Brush Wiregrass	<i>Aristida behriana</i>	
Bulbine Lily	<i>Bulbine bulbosa</i>	
Bull-oak / Buloke	<i>Allocasuarina luehmannii</i>	
Bush Pea	<i>Pultenaea foliolosa</i>	X
Bush Pea	<i>Pultenaea sp.</i>	
Butterbush	<i>Pittosporum angustifolium</i>	
Cherry Ballart	<i>Exocarpos cupressiformis</i>	
Chocolate Lily	<i>Dichopogon strictus</i>	
Climbing Saltbush	<i>Einadia nutans</i>	
Clustered Everlasting	<i>Chrysocephalum semipapposum</i>	
Common Fringe-myrtle	<i>Calytrix tetragona</i>	
Common Reed	<i>Phragmites australis</i>	
Common Wheat Grass	<i>Elymus scaber</i>	
Cootamundra Wattle	<i>Acacia baileyana</i>	
Corrugated Sida	<i>Sida corrugata</i>	
Cotton Fireweed	<i>Senecio quadridentatus</i>	
Couch Grass	<i>Cynodon dactylon</i>	
Creamy Candles	<i>Stackhousia monogyna</i>	X
Creeping Saltbush	<i>Atriplex semibaccata</i>	
Cumbungi	<i>Typha orientale</i>	
Curly Windmill Grass	<i>Enteropogon acicularis</i>	
Currawang	<i>Acacia doratoxylon</i>	
Cut-leaf Goodenia	<i>Goodenia pinnatifida</i>	
Daisy	<i>Brachycome sp.</i>	
Daphne Heath	<i>Brachyloma daphnoides</i>	
Deane's Wattle	<i>Acacia deanei subsp. deanei</i>	
Deane's Wattle	<i>Acacia deanii subsp. paucijuga</i>	
Dodder	<i>Cuscuta sp.</i>	
Dolly Bush	<i>Cassinia aculeata</i>	
Drooping She-oak	<i>Allocasuarina verticillata</i>	
Drooping Wattle	<i>Acacia difformis</i>	

Common Name	Botanical Name	<u>Significant species</u>
Early / Spreading Wattle	<i>Acacia genistifolia</i>	
Eastern Cottonbush	<i>Maireana microphylla</i>	
Emu Bush	<i>Eremophila longifolia</i>	
Erect Guinea Flower	<i>Hibbertia riparia</i>	
Feather Speargrass	<i>Austrostipa elegantissima</i>	
Five-spined Saltbush	<i>Bassia quinquecupis</i>	
Forest Goodenia	<i>Goodenia hederacea</i>	
Fuzzweed	<i>Vittadinia cuneata</i>	
Glycine	<i>Glycine sp.</i>	
Golden Wattle	<i>Acacia pycnantha</i>	
Gorse Bitter Pea	<i>Daviesia ulicifolia</i>	
Grey Box	<i>Eucalyptus microcarpa</i>	
Grey Guinea Flower	<i>Hibbertia obtusifolia</i>	
Guinea Flower	<i>Hibbertia sp.</i>	
Hairy Panic	<i>Panicum effusum</i>	
Hakea Wattle	<i>Acacia hakeoides</i>	
Hickory Wattle	<i>Acacia implexa</i>	
Hill Fireweed	<i>Senecio hispidulus</i>	
Hooked Needlewood	<i>Hakea tephrosperma</i>	X
Ironbark	<i>Eucalyptus sideroxylon</i>	
Jersey Cudweed	<i>Pseudognaphalium luteoalbum</i>	
Juniper Wattle	<i>Acacia ulicifolia</i>	X
Kangaroo Grass	<i>Themeda triandra</i>	
Kurrajong	<i>Brachychiton populneus</i>	
Mallee Bush Pea	<i>Eutaxia microphylla</i> var. <i>diffusa</i>	X
Mallee Bush Pea	<i>Eutaxia microphylla</i> var. <i>microphylla</i>	X
Mallee Wattle	<i>Acacia montana</i>	
Mat Rush	<i>Lomandra sp.</i>	
Mistletoe	<i>Amyema sp.</i> , <i>Muellerina sp.</i>	
Mulga Fern	<i>Cheilanthes sieberi</i>	
Narrow-leaf Hop Bush	<i>Dodonea viscosa</i> subsp. <i>angustissima</i>	
Native Blackthorn / Sweet Bursaria	<i>Bursaria spinosa</i>	X
Nodding Blue Lily	<i>Stypandra glauca</i>	
Northern Silver Wattle	<i>Acacia leucoclada</i>	
Pale Sundew	<i>Drosera peltata</i>	
Peach Heath	<i>Lissanthe strigosa</i>	
Pepperleaf Senna	<i>Senna barclayana</i>	
Perennial Sunray	<i>Helipterum pterochaetum</i>	X
Pink Fingers	<i>Caladenia carnea</i>	
Plains Speargrass	<i>Austrostipa bigeniculata</i>	
Ploughshare Wattle	<i>Acacia gunnii</i>	X
Pretty Cryptandra	<i>Cryptandra amara</i>	
Purple Burr Daisy	<i>Calotis cuneifolia</i>	
Purple Coral Pea	<i>Hardenbergia violacea</i>	X
Quandong	<i>Santalum acuminatum</i>	X

Common Name	Botanical Name	<u>Significant species</u>
Raspwort	<i>Gonacarpus elatus</i>	
Red Stringybark	<i>Eucalyptus macrorhyncha</i>	
Red-leg Grass	<i>Bothriochloa macra</i>	
Reedgrass	<i>Arundinella nepalensis</i>	
River Bottlebrush	<i>Callistemon sieberi</i>	X
River Red Gum	<i>Eucalyptus camaldulensis</i>	
River She-oak	<i>Allocasuarina cunninghamiana</i>	
Rock Fern	<i>Cheilanthes austrotenuifolia</i>	
Rough Wattle	<i>Acacia aspera</i>	
Rush	<i>Juncus sp.</i>	
Saltbush	<i>Atriplex sp.</i>	
Short-haired Plume Grass	<i>Dichelachne micrantha</i>	
Showy Parrot Pea	<i>Dillwynia sericea</i>	X
Sifton Bush	<i>Cassinia arcuata</i>	
Silver Cassia	<i>Senna artemisioides var. artemisioides</i>	
Slender Bitter Pea	<i>Daviesia leptophylla</i>	
Slender Rice Flower	<i>Pimelea linifolia</i>	X
Small Vanilla Lily	<i>Arthropodium minus</i>	
Smooth Flax Lily	<i>Dianella longifolia</i>	
Spreading Flax Lily	<i>Dianella revoluta</i>	
Sticky Everlasting	<i>Bracteantha viscosa</i>	
Stinking Pennywort	<i>Hydrocotyle laxiflora</i>	
Tall Bluebell	<i>Wahlenbergia stricta</i>	
Three-veined Wattle	<i>Acacia trineura</i>	X
Thyme Spurge	<i>Phyllanthus thymoides</i>	
Tick Indigo	<i>Indigofera adesmiifolia</i>	X
Tumbledown Gum	<i>Eucalyptus dealbata</i>	
Twiggy Bush Pea	<i>Pultenaea largiflorens</i>	
Umbrella Grass	<i>Digitaria divaricatissima</i>	
Variable Glycine	<i>Glycine tabacina</i>	X
Variable Speargrass	<i>Austrostipa variabilis</i>	
Varnish Wattle	<i>Acacia verniciflua</i>	
Violet Kunzea	<i>Kunzea parvifolia</i>	
Wallaby Grass	<i>Austrodanthonia sp.</i>	
Wedge-leaf Hop Bush	<i>Dodonea viscosa subsp. cuneata</i>	
Weeping Meadow Grass	<i>Microlaena stipoides</i>	
Western Boobialla	<i>Myoporum montanum</i>	
Western Silver Wattle	<i>Acacia decora</i>	
White Box	<i>Eucalyptus albens</i>	
White Cypress Pine	<i>Callitris glaucophylla</i>	
Willow Herb	<i>Epilobium billardierianum</i>	
Windmill Grass	<i>Chloris truncata</i>	
Wiregrass	<i>Aristida sp.</i>	
Yellow Box	<i>Eucalyptus melliodora</i>	
Yellow Burr Daisy	<i>Calotis lappulacea</i>	
Yellow Buttons	<i>Chrysocephalum apiculatum</i>	
Yellow Wood-sorrel	<i>Oxalis corniculata</i>

2.4 Introduced Plants

Introduced plants include agricultural weeds, declared noxious weeds for Junee Shire, environmental weeds including weeds of national significance, garden escapes and non-indigenous native plants. Declared categories for noxious weeds are listed below.

Cootamundra Wattle (*Acacia baileyana*) appears as both a local native plant (Section 2.3) and an introduced plant due to it being commonly planted outside its natural range (to the immediate northeast of Junee Shire).

Common Name	Botanical Name	Weed Category
African Boxthorn	<i>Lycium ferocissimum</i>	W2
Almond	<i>Prunus sp.</i>	
Amsinckia	<i>Amsinckia sp.</i>	
Apple	<i>Malus sp.</i>	
Apple of Sodom	<i>Solanum sodomaeum</i>	
Ash	<i>Fraxinus sp.</i>	
Barley Grass	<i>Hordeum leporinum</i>	
Black Locust	<i>Robinia pseudoacacia</i>	
Black Thistle	<i>Cirsium vulgare</i>	
Blackberry	<i>Rubus fruticosus</i>	W2
Blackberry Nightshade	<i>Solanum nigrum</i>	
Blue Heliotrope	<i>Heliotropium amplexicaule</i>	
Bridal Veil Creeper	<i>Asparagus asparagoides</i>	WONS
Briza	<i>Briza maxima</i>	
Brome Grass	<i>Bromus sp.</i>	
Capeweed	<i>Arctotheca calendula</i>	
Carob	<i>Ceratonia siliqua</i>	
Catsear	<i>Hypochoeris sp.</i>	
Century Plant	<i>Agave americana</i>	
Chicory	<i>Cichorium intybus</i>	
Claret Ash	<i>Fraxinus x 'Raywoodii'</i>	
Cleavers	<i>Galium aparine</i>	
Clover	<i>Trifolium sp.</i>	
Cocksfoot	<i>Dactylis glomerata</i>	
Common Heliotrope	<i>Heliotropium europaeum</i>	
Common Thornapple	<i>Datura stramonium</i>	
Cootamundra Wattle	<i>Acacia baileyana</i>	
Cotoneaster	<i>Cotoneaster sp.</i>	
Crowsfoot	<i>Erodium sp.</i>	
Dock	<i>Rumex sp.</i>	
Elm	<i>Ulmus sp.</i>	
Evening Primrose	<i>Oenothera stricta</i>	
Fig	<i>Ficus sp.</i>	
Firethorn	<i>Pyracantha sp.</i>	
Flax-leaf Fleabane	<i>Conyza bonariensis</i>	
Galvanised Burr	<i>Sclerolaena birchii</i>	

Common Name	Botanical Name	Weed Category
Gazania	<i>Gazania sp.</i>	
Great Brome	<i>Bromus diandrus</i>	
Great Mullein	<i>Verbascum thapsus</i>	
Haresfoot Clover	<i>Trifolium arvense</i>	
Hawthorn	<i>Crataegus monogyna</i>	
Horehound	<i>Marrubium vulgare</i>	W3
Johnson Grass	<i>Sorghum halapense</i>	W2
Khaki Weed	<i>Alternanthera pungens</i>	
Kikuyu	<i>Pennisetum clandestinum</i>	
Lucerne	<i>Medicago sativa</i>	
Lucerne Tree	<i>Chamaecytisus proliferus</i>	
Maple	<i>Acer sp.</i>	
Narrow-leaf Clover	<i>Trifolium angustifolium</i>	
Nectarine	<i>Prunus sp.</i>	
Eucalypt	<i>Eucalyptus sp.</i>	
Wattle	<i>Acacia sp.</i>	
Olive	<i>Olea europea</i>	
Onion Grass	<i>Romulea rosea</i>	
Oxalis	<i>Oxalis pes-caprae</i>	
Paddy Melon	<i>Cucumis sp.</i>	
Palm		
Paspalum	<i>Paspalum dilatatum</i>	
Paterson's Curse	<i>Echium plantagineum</i>	W3
Peach	<i>Prunus persica</i>	
Pelargonium	<i>Pelargonium sp.</i>	
Peppercorn	<i>Schinus areira</i>	
Phalaris	<i>Phalaris aquatica</i>	
Pimpernel	<i>Anagallis arvensis</i>	
Pine	<i>Pinus sp.</i>	
Plantain	<i>Plantago lanceolata</i>	
Poplar	<i>Populus sp.</i>	
Poppy	<i>Papaver sp.</i>	
Privet	<i>Ligustrum sp.</i>	
Purpletop	<i>Verbena bonariensis</i>	
Ryegrass	<i>Lolium sp.</i>	
Saffron Thistle	<i>Carthamus lanatus</i>	
Scotch Thistle	<i>Onopordum acanthium</i>	W2
Sheep's Burr	<i>Acaena ovina</i>	
Shepherd's Purse	<i>Capsella bursa-pastoris</i>	
Silky Oak	<i>Grevillea robusta</i>	
Silver Grass	<i>Vulpia sp.</i>	
Skeleton Weed	<i>Chondrilla juncea</i>	
Small-flowered Mallow	<i>Malva parviflora</i>	
Sorrel	<i>Acetosella vulgaris</i>	
Sow Thistle	<i>Sonchus sp.</i>	
St Barnaby's Thistle	<i>Centaurea solstitialis</i>	
St John's Wort	<i>Hypericum perforatum</i>	W2
Stinging Nettle	<i>Urtica urens</i>	

Common Name	Botanical Name	Weed Category
Sugar Gum	<i>Eucalyptus cladocalyx</i>	
Sweet Briar	<i>Rosa rubiginosa</i>	W3
Tree of Heaven	<i>Ailanthus altissima</i>	W3
Twiggy Mullein	<i>Verbascum virgatum</i>	
Variegated Thistle	<i>Silybum marianum</i>	
Vetch	<i>Vicia sp.</i>	
White Cedar	<i>Melia azedarach</i>	
Wild Lettuce	<i>Lactuca serriola</i>	
Wild Mignonette	<i>Reseda luteola</i>	
Wild Oats	<i>Avena sp.</i>	
Wild Radish	<i>Raphanus raphanistrum</i>	W2
Wild Sage	<i>Salvia verbenaca</i>	
Willow	<i>Salix sp.</i>	W4g
Wireweed	<i>Polygonum aviculare</i>	

NOXIOUS WEEDS

Control categories for noxious weeds are defined under the Noxious Weeds Act (1993) as follows:

W2 weeds – must be fully and continuously suppressed and destroyed

W3 weeds – must be prevented from spreading and numbers and distribution reduced

W4g weeds – must not be sold, propagated or knowingly distributed

MANAGEMENT OF ROADSIDE VEGETATION

3.1 Management according to conservation status

Having recognised the importance of native vegetation on roadsides it is essential that these areas be managed to maintain and enhance the vegetation present, while balancing the needs of all road users. Road maintenance, the provision of services, and other roadside activities can be planned in a way that is sympathetic to the conservation values of the roadside vegetation.

Guidelines for management can be broadly prescribed for each road section according to the assigned conservation values. More specific guidelines are set out for particular activities, and for areas of high conservation value.

High Conservation Value indicates areas in a relatively natural undisturbed state. These are usually fairly stable environments, requiring low management input and therefore costing less to maintain. The continued stability of these areas depends on keeping disturbance to a minimum. The impact of cars, machinery, stock and indiscriminate fire are disturbances which destroy the stability of the roadside environment and may lead to management problems such as weed invasion or soil erosion.

Medium Conservation Value indicates areas that may benefit from active management. Depending on the management goals, there are a range of actions that may be taken. Some of these areas could achieve a high conservation value status with weed control and revegetation activities. This has long term cost benefits to Council as good quality native vegetation requires little maintenance and suppresses weeds.

Low Conservation Value indicates the most degraded roadside environments, although these may still have some native vegetation present. These areas often incur high maintenance costs due to the prevalence of weeds and other exotic vegetation. They may be subject to erosion, or pose a high fire risk due to the presence of annual weeds. These roadsides may respond to managed grazing and are the preferred location for road construction stockpiles and services. Establishment of native vegetation on these areas may be prohibitively expensive, or prone to failure due to weeds. It is often more beneficial to maintain existing stands of native vegetation than to start again in highly degraded sites.

3.2 Recommendations to Council

For the general management of native vegetation on roadsides, it is recommended that Council:

- Use statutory mechanisms to control clearing and protect remnant roadside vegetation.
- Raise community awareness of the values of roadside vegetation and take the lead in involving local communities in their management.
- Where practical and consistent with roads management, maintain the widest possible vegetation corridor.
- Minimise the losses and degradation of existing roadside vegetation by avoiding disturbances that will reduce the width or increase edge effects.
- If disturbance is inevitable, revegetate with suitable local native plants, including all strata of the original vegetation.
- Record all actions taken and their results.
- Monitor the progress of revegetation projects.
- Accept that management of plant communities is a dynamic process. Management plans need to be adaptable and should be adjusted as a result of monitoring.
- Disseminate the results so that others may benefit from the experience gained.
- Continue to work with Landcare and other community groups in revegetation activities throughout the Shire

Community consultation and previous surveys throughout the region have identified a number of areas of specific concern in relation to the management of road reserves. Of these the most significant issues are:

- Road construction and maintenance
- Weed control
- Fire control and hazard reduction
- Firewood collection

ROAD CONSTRUCTION AND MAINTENANCE

While recognising that road construction and maintenance are essential to the safety of road users, there is often conflict between efficient road maintenance activities and the preservation of native vegetation. Road construction machinery can damage roadside vegetation, create erosion problems, and facilitate the spread of weeds.

To minimise these impacts it is recommended that Council:

- Adopt as standard practice the guidelines contained in '*Roadside Handbook for Junee Shire Council – Environmental Guidelines for Road Construction and Maintenance Workers*' published by the Olympic Highway 2000 Committee.
- Assess vegetation as part of the construction planning process.
- Plan the location of stockpiles and turning areas prior to construction.
- Revegetate with indigenous species following construction.

Road maintenance on Dirnaseer Road has caused extensive damage to native perennial grasses

WEED CONTROL

Many agricultural and environmental weeds occur on roadsides. High quality native vegetation can provide an effective barrier to the establishment and spread of many weeds. Council presently meets legislative requirements by undertaking control of noxious weeds on road reserves.

Further to these practices it is recommended that Council:

- Use integrated weed control principles to minimise the impact of control on native vegetation.
- Where funds are available, control non-declared and environmental weeds where they are impacting on high and medium conservation value areas.
- Avoid the spread of weeds by cleaning machinery before moving between maintenance and construction sites.

FIRE CONTROL AND HAZARD REDUCTION

Roadsides play an important role in fire control, but they can be a source of accidental and deliberate ignition. Roadside vegetation needs to be managed to reduce the effect of fire on roadside areas and adjoining properties. Under the Rural Fires Act, 1997, management of roadside reserves for fire protection is the responsibility of Council.

Section 1.3.1 of the Coolamon-Junee Bush Fire Risk Management Plan states:

“The aim of the Coolamon-Junee Bush Fire Risk Management Plan is to provide for the coordinated prevention and mitigation of bush fires for:

- (a) the protection of life, property and the environment within the community; and
- (b) the protection, maintenance and wherever possible the enhancement of the natural and cultural values of the area through the management of appropriate fire regimes.”

Management of fuel levels on roadsides can be maintained by a variety of methods including burning, grazing, slashing and spraying.

It is recommended that Council:

- Avoid the establishment of cultivated firebreaks within high conservation areas.
- Provide breaks around crops and fences to limit extension of a fire across paddocks and on to the roadside.
- Restrict roadside hazard reduction activities such as slashing and spraying to the back of the table drain in high and medium conservation value areas.
- Maintain and encourage perennial native grasses through an appropriate regime of burning and grazing.
- Provide strategic fire advantage zones to protect critical habitat where vegetation regimes are under threat

FIREWOOD COLLECTION

Obvious signs of firewood collection are common on roadsides. Although it is against the law to remove timber from roadsides, many residents make use of the readily available firewood. In addition to growing trees, standing dead timber provides habitat for many native birds and animals.

A permit is required from State Forests of NSW to remove timber from roadsides.

It is recommended that Council:

- Enforce prohibition of firewood collection on road reserves
- Where tree removal is inevitable during road construction, stockpile timber for firewood use

Marinna Road – firewood removal was identified on many roadsides in Junee Shire. This practice destroys vital habitat of native birds and animals.

Road Name Junee Shire Road No Survey ID Conservation Value	Direction Section Length in km	Start and End points	Native Vegetation by Common Name	Introduced Plants by Common Name	Comments
Aerodrome Lane 1 103 Left: Low Right: Low	North 10.9	Harefield Road to Olympic Highway	Eastern Cottonbush, Hickory Wattle, Kurrajong, Northern Silver Wattle, Western Silver Wattle, White Box, White Cypress Pine	Almond, Annual Grasses, Paterson's Curse, Peach, Peppercorn, Pine, Silky Oak	First 6km with good treecover - reduces generally towards lane end. Road plantation of exotic pines.
Allawah Road 60 30 Left: Low Right: Low	East 8.7	Eurongilly Road to Bethungra Road	Eastern Cottonbush, Five-spined Saltbush, Grey Box, Mallee Wattle, Native Blackthorn / Sweet Bursaria, River Red Gum, Wedge-leaf Hop-bush, White Cypress Pine, Yellow Box	African Boxthorn, Annual Grasses, Deciduous Tree, Horehound, Paspalum, Paterson's Curse, Peach, Peppercorn, Poplar, White Cedar	No trees on last 3.7km, this section narrow on left.
Alstonville Lane 2 42 Left: Low Right: Low	South-west 5	Wantabadgery Road to lane end	Apple Box	Annual Grasses, Lucerne Tree, Paterson's Curse	Exotic plantation adjacent to lane. Very few adjacent trees. Fenced and heavily grazed.
Ballengoarrah Lane 10 203 Left: Low Right: Low	North 6.7	MR243 to Waterworks Rd	Blakely's Red Gum, Hickory Wattle, Kurrajong, Northern Silver Wattle, Plains Speargrass, Red-leg Grass, Variable Speargrass, Wallaby Grass, Western Silver Wattle, White Box, White Cypress Pine, Yellow Box	Almond, Annual Grasses, Black Thistle, Catsear, Dock, Nectarine, Olive, Onion Grass, Oxalis, Paspalum, Paterson's Curse, Peach, Pelargonium, Peppercorn, Sheep's Burr, St John's Wort, Sweet Briar, Tree of Heaven, Wild Sage	Sprayed fire break.
Bartons Lane 101 82 Left: High Right: High	West 1.9	Dead End to Pikedale Road	Bluebell, Clustered Everlasting, Cut-leaf Goodenia, Kangaroo Grass, Kurrajong, Mat Rush, Plains Speargrass, Spreading Flax-lily, Tumbledown Gum, Wallaby Grass, Western Silver Wattle, White Box, White Cypress Pine, Yellow Box	Briza, Brome Grass, Cotoneaster, Lucerne Tree, Olive, Paterson's Curse, Ryegrass, Wild Oats, Wild Sage	East end Yellow Box and White Box with intact grassy understorey. Fire breaks.

Road Name Junee Shire Road No Survey ID Conservation Value	Direction Section Length in km	Start and End points	Native Vegetation by Common Name	Introduced Plants by Common Name	Comments
Bartons Lane 101 83 Left: High Right: High	West 2.2	Pikedale Road to Strathbogie Lane	Clustered Everlasting, Cut-leaf Goodenia, Deane's Wattle, Grey Box, Kangaroo Grass, Kurrajong, Plains Speargrass, Smooth Flax-lily, Spreading Flax-lily, Tick Indigo, Wallaby Grass, Western Silver Wattle, White Box, White Cypress Pine, Yellow Box	Almond, Briza, Brome Grass, Horehound, Paterson's Curse, Sweet Briar, Wild Oats, Wild Sage	Significant species: Tick Indigo.
Baylis Lane 4 19 Left: Medium Right: High	West 1.9	Olympic Highway (south) to Olympic Highway (north)	Climbing Saltbush, Common Wheat Grass, Corrugated Sida, Five-spined Saltbush, Grey Box, Kurrajong, Plains Speargrass, Red-leg Grass, River Red Gum, Rush, Variable Speargrass, Wallaby Grass, Windmill grass, Wiregrass, Yellow Box	Barley Grass, Black Thistle, Cocksfoot, Cootamundra Wattle, Dock, Horehound, Khaki Weed, Narrow-leaf Clover, Paspalum, Paterson's Curse, Peppercorn, Sheep's Burr, Shepherd's Purse, St John's Wort, Stinging Nettle, Tree of Heaven, Wild Mignonette, Wild Oats, Wild Sage	Good mature trees. Good grass understorey. Links to creek. Bee hives.
Bethungra Road 7 197 Left: Medium Right: Medium	North 4.6	Gundagai Shire boundary to Yammatree Road	Blakely's Red Gum, Grey Box, Hickory Wattle, Kurrajong, Mat Rush, Plains Speargrass, Pretty Cryptandra, River Red Gum, Varnish Wattle, Western Silver Wattle, White Box, White Cypress Pine	Annual Grasses, Horehound, Olive, Palm, Paterson's Curse, Peppercorn, St John's Wort	Roadworks – table drain formation excessive. Cryptandra locally rare.
Bethungra Road 7 199 Left: Medium Right: Medium	North 1.9	Yammatree Road to Kiaree Lane	Climbing Saltbush, Eastern Cottonbush, Five-spined Saltbush, Grey Box, Kurrajong, Mat Rush, Native Blackthorn / Sweet Bursaria, Plains Speargrass, Wedge-leaf Hop- bush, Western Silver Wattle, White Cypress Pine, Yellow Box	African Boxthorn, Annual Grasses, Century Plant, Paterson's Curse, Peppercorn	Excessive grazing preventing regeneration. Spraying beyond table drain.

Road Name Junee Shire Road No Survey ID Conservation Value	Direction Section Length in km	Start and End points	Native Vegetation by Common Name	Introduced Plants by Common Name	Comments
Bethungra Road 7 200 Left: Medium Right: Low	North 6.1	Kiaree Lane to Ulandra gate	Blakely's Red Gum, Eastern Cottonbush, Five-spined Saltbush, Grey Box, Hakea Wattle, Hickory Wattle, Mallee Bush-pea, Plains Speargrass, River Red Gum, Sifton Bush, Wedge-leaf Hop-bush, Western Silver Wattle, White Cypress Pine, Yellow Box	African Boxthorn, Annual Grasses, Paterson's Curse, Poplar, Variegated Thistle	
Bethungra Road 7 201 Left: High Right: Medium	North 4.3	Ulandra gate to Bethungra rail crossing	Eastern Cottonbush, Five-spined Saltbush, Grey Box, Mallee Bush-pea, Native Blackthorn / Sweet Bursaria, Rock Fern, Sifton Bush, Varnish Wattle, Violet Kunzea, Wedge-leaf Hop- bush, Western Silver Wattle, White Box, White Cypress Pine, Yellow Box, Yellow Buttons	Onion Grass, Peppercorn, St John's Wort	Some areas with good tree cover. Good remnant at northern end.

Road Name Junee Shire Road No Survey ID Conservation Value	Direction Section Length in km	Start and End points	Native Vegetation by Common Name	Introduced Plants by Common Name	Comments
Bethungra Waterworks Road 8 120 Left: High Right: High	East 5	Rail underpass (SR 78) to stock grid at lane end	Austral cranesbill, Black Cypress Pine, Blakely's Red Gum, Bluebell, Chocolate Lily, Clustered Everlasting, Common Fringe-myrtle, Cotton Fireweed, Creeping Saltbush, Currawang, Daphne Heath, Drooping She-oak, Erect Guinea Flower, Grey Box, Grey Guinea Flower, Hickory Wattle, Hill Fireweed, Ironbark, Kangaroo Grass, Kurrajong, Lily, Narrow-leaf Hop-bush, Nodding Blue Lily, Pale Sundew, Plains Speargrass, Raspwort, Red Stringybark, River Red Gum, Rock Fern, Showy Parrot-pea, Sifton Bush, Smooth Flax-lily, Spreading Flax-lily, Spreading Flax-lily, Tumbledown Gum, Varnish Wattle, Violet Kunzea, Weeping Meadow Grass, Western Silver Wattle, White Box, Yellow Buttons	Annual Grasses, Blackberry, Briza, Lucerne Tree, Paterson's Curse, Peppercorn, St John's Wort, Twiggy Mullein	Mistletoe common. Road width varies from less than 5 metres to greater than 100 metres. Erosion
Billabong Road 126 25 Left: Low Right: Low	North 5.7	MR243 to Oura Road	Dolly Bush, Yellow Box	Annual Grasses, Paterson's Curse	
Blackgate Road 9 159 Left: Low Right: Low	South 3.5	Pinchgut Lane to Dirnaseer Road	Cootamundra Wattle, Deane's Wattle, Grey Box, Northern Silver Wattle, Plains Speargrass, White Box, White Cypress Pine, Yellow Box	Annual Grasses, Catsear, Horehound, Onion Grass, Paspalum, Paterson's Curse, Phalaris, Poplar, Wild Sage	

Road Name Junee Shire Road No Survey ID Conservation Value	Direction Section Length in km	Start and End points	Native Vegetation by Common Name	Introduced Plants by Common Name	Comments
Blackgate Road 9 166 Left: Low Right: Low	North 5	Pinchgut Lane to Bundoora gate	Deane's Wattle, Grey Box, Northern Silver Wattle, Plains Speargrass, White Box, White Cypress Pine, Yellow Box	Almond, Annual Grasses, Elm, Great Mullein, Horehound, Onion Grass, Paspalum, Paterson's Curse, Phalaris, Saffron Thistle	
Blackgate Road 9 165 Left: Medium Right: High	North 1.2	Bundoora gate to Old Cootamundra Road	Bent-leaf Wattle, Black Cypress Pine, Common Fringe-myrtle, Cut-leaf Goodenia, Deane's Wattle, Eastern Cottonbush, Grey Box, Hakea Wattle, Ironbark, Mat Rush, Native Blackthorn / Sweet Bursaria, Peach Heath, Plains Speargrass, Rock Fern, Rough Wattle, Sifton Bush, Spreading Flax-lily, Wallaby Grass	Annual Grasses, Paspalum Paterson's Curse, Phalaris	Non- local native tree planting on road.

Road Name Junee Shire Road No Survey ID Conservation Value	Direction Section Length in km	Start and End points	Native Vegetation by Common Name	Introduced Plants by Common Name	Comments
Bomen Road 67 99 Left: Low Right: Low	South 2.1	Pattersons Road to Shire boundary	Grey Box, Kangaroo Grass, Northern Silver Wattle, Sifton Bush, Yellow Box	Almond, Annual Grasses, Lucerne Tree, Paterson's Curse	Extensive wattle regeneration area on left side in last half of road.
Boundary Road 23 15 Left: Low Right: Low	West 3	Marrar Road to Wagga Boundary	Bluebell, Climbing Saltbush, Creeping Saltbush, Deane's Wattle, Eastern Cottonbush, Fuzzweed, Hairy Panic, Kurrajong, Mat Rush, Plains Speargrass, Red-leg Grass, Wallaby Grass, Western Silver Wattle, White Cypress Pine, Yellow Box	Almond, Black Thistle, Brome Grass, Cocksfoot, Cootamundra Wattle, Dock, Evening Primrose, Horehound, Kikuyu, Lucerne Tree, Olive, Paspalum, Paterson's Curse, Pine, Saffron Thistle, Skeleton Weed, St Barnaby's Thistle, White Cedar, Wild Mignonette, Wild Oats, Wild Sage	Sheoaks at creek. Connections to creek planting.
Boundary Road 23 11 Left: Low Right: Low	East 3.5	Marrar Road to Coursing Park Road	Blakely's Red Gum, Bluebell, Common Wheat Grass, Fuzzweed, Kurrajong, Plains Speargrass, Red-leg Grass, Smooth Flax-lily, Spreading Flax-lily, Western Silver Wattle, White Cypress Pine, Yellow Box	Almond, Brome Grass, Catsear, Deciduous Tree, Evening Primrose, Flax-leaf Fleabane, Gazania, Horehound, Narrow-leaf Clover, Paspalum, Paterson's Curse, Peppercorn, Skeleton Weed, St John's Wort, Wild Mignonette, Wild Oats	One small patch of moderate value in middle of section. Some firewood removal.
Boundary Road 23 10 Left: Low Right: Low	East 6.7	Coursing Park Road to Dunnings Lane	Blakely's Red Gum, Climbing Saltbush, Curly Windmill Grass, Fuzzweed, Hickory Wattle, Kurrajong, Mat Rush, Northern Silver Wattle, Plains Speargrass, Red-leg Grass, River Red Gum, River She-oak, Smooth Flax-lily, Spreading Flax-lily, Variable Speargrass, Western Silver Wattle, White Box, White Cypress Pine, Yellow Box	Almond, Black Thistle, Brome Grass, Century Plant, Horehound, Lucerne Tree, Paspalum, Paterson's Curse, Peppercorn, Phalaris, Skeleton Weed, St John's Wort, Succulents / Cacti, White Cedar, Wild Oats, Wild Sage	Rocky area fenced out.

Road Name Junee Shire Road No Survey ID Conservation Value	Direction Section Length in km	Start and End points	Native Vegetation by Common Name	Introduced Plants by Common Name	Comments
Brabins Road 62 27 Left: Medium Right: Medium	North 4.2	MR243 to Wantiool Road	Blakely's Red Gum, Grey Box, Kurrajong, Western Silver Wattle, White Box, White Cypress Pine, Yellow Box	African Boxthorn, Almond, Annual Grasses, Capeweed, Horehound, Olive, Paterson's Curse, Peppercorn, White Cedar	Threatened fauna species noted - Peregrine falcon.
Brabins Road 62 28 Left: Medium Right: Medium	North 2.7	Wantiool Road to Hazeldene Road	Chocolate Lily, Daisy, Eastern Cottonbush, Hickory Wattle, Kurrajong, Native Blackthorn / Sweet Bursaria, Smooth Flax- lily, Spreading Flax-lily, Varnish Wattle, Western Silver Wattle, White Box, White Cypress Pine, Yellow Box, Yellow Buttons	Annual Grasses, Horehound, Olive, Paterson's Curse, Peppercorn, St John's Wort, Sweet Briar, White Cedar	Threatened fauna species noted - Superb Parrot, Choughs nest. Some evidence of firewood removal.

Road Name Junee Shire Road No Survey ID Conservation Value	Direction Section Length in km	Start and End points	Native Vegetation by Common Name	Introduced Plants by Common Name	Comments
Brabins Road 62 21 Left: High Right: High	North 6.5	Hazeldene Road to creek crossing	Amulla, Austral cranesbill, Bent- leaf Wattle, Bindweed, Blakely's Red Gum, Bulbine Lily, Bull-oak / Buloke, Butterbush, Chocolate Lily, Climbing Saltbush, Clustered Everlasting, Corrugated Sida, Creamy Candles, Creeping Saltbush, Cut-leaf Goodenia, Drooping Wattle, Eastern Cottonbush, Forest Goodenia, Fuzzweed, Grey Box, Hakea Wattle, Kurrajong, Mallee Bush-pea, Mallee Bush-pea, Mallee Wattle, Mat Rush, Mulga Fern, Native Blackthorn / Sweet Bursaria, Plains Speargrass, Pretty Cryptandra, Purple Burr Daisy, Raspwort, Rock Fern, Showy Parrot-pea, Sifton Bush, Silver Cassia, Slender Rice Flower, Small Vanilla Lily, Smooth Flax- lily, Spreading Flax-lily, Sticky Everlasting, Stinking Pennywort, Tall Bluebell, Tick Indigo, Variable Glycine , Variable Speargrass, Varnish Wattle, Wallaby Grass, Wedge-leaf Hop- bush, Western Silver Wattle, White Cypress Pine , Yellow Box, Yellow Burr Daisy, Yellow Buttons	Annual Grasses, Olive, Peach, St John's Wort, White Cedar	High conservation value both sides of road. Threatened fauna species noted - Grey Crowned Babblers, Boobook, Red Capped Robin and Superb Parrot. Unidentified Pea – possibly gomphelobium. Council road widening.
Brabins Road 62 29 Left: Low Right: Low	North 1.4	Creek crossing to Eurongilly Road	Grey Box, Yellow Box	Annual Grasses, Paterson's Curse, Peppercorn	

Road Name Junee Shire Road No Survey ID Conservation Value	Direction Section Length in km	Start and End points	Native Vegetation by Common Name	Introduced Plants by Common Name	Comments
Bremeers Lane 16 76 Left: Low Right: Low	North 1.5	Coffin Rock Road to end	Fuzzweed, Plains Speargrass, Wallaby Grass, Wire Grass, White Box	Barley Grass, Brome Grass, Horehound, Paspalum, Paterson's Curse, Sweet Briar, Wild Oats	
Burnt Creek Lane 12 150 Left: Medium Right: Medium	South 6.2	MR243 to end	Blakely's Red Gum, Hickory Wattle, Kurrajong, Sifton Bush, Western Silver Wattle, White Box, Yellow Box	Annual Grasses, Cocksfoot, Dock, Evening Primrose, Onion Grass, Paspalum, Paterson's Curse, Pine, Sorrel, Wild Mignonette	First 2km and last 1km very poor. Good trees and regeneration in the middle section. Firewood - some dead timber removed.
Bussenschutts Lane 13 14 Left: Low Right: Low	East 2.5	Wagga boundary to Marrar Road	Bluebell, Climbing Saltbush, Deane's Wattle, Eastern Cottonbush, Kurrajong, Plains Speargrass, Smooth Flax-lily, Wallaby Grass, Western Silver Wattle, White Box, White Cypress Pine, Yellow Box	Almond, Black Thistle, Brome Grass, Cootamundra Wattle, Dock, Flax-leaf Fleabane, Horehound, Narrow-leaf Clover, Paspalum, Paterson's Curse, Ryegrass, St John's Wort, Sweet Briar, Wild Oats, Wild Sage	
Butts Lane 14 90 Left: Low Right: Low	East 0.8	Combaning Road to lane end	Fuzzweed, Plains Speargrass, Sifton Bush, Wallaby Grass, Yellow Box	Annual Grasses, Paspalum, Paterson's Curse	

Road Name Junee Shire Road No Survey ID Conservation Value	Direction Section Length in km	Start and End points	Native Vegetation by Common Name	Introduced Plants by Common Name	Comments
Cartwrights Lane 22 12 Left: Low Right: Low	West 2	Olympic Highway to McKenzies Road	Blakely's Red Gum, Brush Wiregrass, Corrugated Sida, Deane's Wattle, Grey Box, Hickory Wattle, Kangaroo Grass, Kurrajong, Mat Rush, Plains Speargrass, Red-leg Grass, Wallaby Grass, White Cypress Pine, Yellow Box	Almond, Blue Heliotrope, Catsear, Century Plant, Cocksfoot, Cootamundra Wattle, Deciduous Tree, Dock, Firethorn, Great Brome, Horehound, Lucerne Tree, Narrow-leaf Clover, Paspalum, Paterson's Curse, Peppercorn, Skeleton Weed, St John's Wort, Succulents / Cacti, Sweet Briar, Variegated Thistle, White Cedar, Wild Mignonette, Wild Oats, Wild Sage, Wireweed	Potential for introduced acacia to become a weed. Check trees to west end - eucalypt death. Sheoak suckers.
Cartwrights Lane 22 51 Left: Low Right: Low	South 3.5	Yathella Road to McKenzies Road	Bluebell, Deane's Wattle, Fuzzweed, Grey Box, Hickory Wattle, Kurrajong, Plains Speargrass, Red-leg Grass, Wallaby Grass, White Box, White Cypress Pine, Yellow Buttons	Almond, Barley Grass, Brome Grass, Capeweed, Cocksfoot, Dock, Haresfoot Clover, Horehound, Lucerne Tree, Paspalum, Paterson's Curse, Peppercorn, Sweet Briar, Twiggy Mullein, Variegated Thistle, Wild Mignonette, Wild Oats, Wild Sage, Wireweed	Few trees. Degraded understorey. Grazed.
Cemetery Lane (Old Junee) 0 57 Left: Medium Right: Medium	East 0.9	Cemetery to TR 57	Bluebell, Chocolate Lily, Fuzzweed, Kurrajong, Plains Speargrass, Smooth Flax-lily, Variable Speargrass, Wallaby Grass, Yellow Box	African Boxthorn, Barley Grass, Brome Grass, Capeweed, Catsear, Clover, Cootamundra Wattle, Deciduous Tree, Paspalum, Paterson's Curse, Peppercorn, Ryegrass, Wild Mignonette, Wild Oats	Good links to the south.

Road Name Junee Shire Road No Survey ID Conservation Value	Direction Section Length in km	Start and End points	Native Vegetation by Common Name	Introduced Plants by Common Name	Comments
Chamberlains Lane 27 13 Left: Low Right: Low	East 1	Marrar Road to lane end	Blakely's Red Gum, Couch Grass, Deane's Wattle, Hairy Panic, Plains Speargrass, Variable Speargrass, White Cypress Pine	Black Thistle, Brome Grass, Common Thornapple, Dock, Haresfoot Clover, Horehound, Narrow-leaf Clover, Paspalum, Paterson's Curse, Ryegrass, Skeleton Weed, Wild Oats, Wild Sage	3 mature trees on road. Minimal regeneration.
Church Lane 71 145 Left: Medium Right: Medium	East 3.5	TR 57 to Junee Reefs Road	Creeping Saltbush, Grey Box, Mat Rush, Plains Speargrass, Yellow Box	Almond, Annual Grasses, Horehound, Paterson's Curse, Peach, Peppercorn, Pine, Small-flower Mallow, Sorrel, Wild Mignonette	Lane widens out to a 3ha square in the middle section with a good stand of eucalypts and no understorey.
Clear Hills Road 30 128 Left: Low Right: Low	East 6.2	Combaning Road to Dirnaseer Road	Bull-oak / Buloke, Eastern Cottonbush, Fuzzweed, Grey Box, Hakea Wattle, Kurrajong, Mallee Wattle, Silver Cassia, Slender Bitter-pea, Three-veined Wattle, Wedge-leaf Hop-bush, Western Silver Wattle, White Cypress Pine, Yellow Box	African Boxthorn, Annual Grasses, Horehound, Paspalum Paterson's Curse, Succulents / Cacti, Sweet Briar	<i>Acacia trineura</i> (only one found in shire).
Cochranes Road 29 5 Left: Low Right: Low	South 3.7	Cochranes Road	Couch Grass, Curly Windmill Grass, Fuzzweed, Kangaroo Grass, Kurrajong, Mat Rush, Plains Speargrass, Red-leg Grass, Spreading Flax-lily, Variable Speargrass, Wallaby Grass, Western Silver Wattle, White Box, White Cypress Pine, Yellow Box	African Boxthorn, Black Thistle, Blue Heliotrope, Brome Grass, Catsear, Dock, Evening Primrose, Horehound, Paspalum, Paterson's Curse, Peppercorn, Skeleton Weed, St John's Wort, Variegated Thistle, Wild Oats	

Road Name Junee Shire Road No Survey ID Conservation Value	Direction Section Length in km	Start and End points	Native Vegetation by Common Name	Introduced Plants by Common Name	Comments
Coffin Rock Road 20 74 Left: Low Right: Low	West 8.5	TR 57 to Coolamon Shire boundary	Bluebell, Couch Grass, Grey Box, Kurrajong, Northern Silver Wattle, Plains Speargrass, Spreading Flax-lily, Wallaby Grass, Western Silver Wattle, White Box, White Cypress Pine, Yellow Box	Brome Grass, Paddy Melon, Paspalum, Paterson's Curse, Peppercorn, Pimpernel, Poppy, Ryegrass, Saffron Thistle, Stinging Nettle, Sweet Briar, White Cedar, Wild Oats	Improves at west end rising to White Box and White Cypress Pine with grass and herb understorey.
Combaning Road 19 93 Left: Medium Right: Medium	North 12.5	TR 57 to Hopedale gate	Bindweed, Blakely's Red Gum, Bull-oak / Buloke, Bush-pea, Deane's Wattle, Eastern Cottonbush, Five-spined Saltbush, Grey Box, Hakea Wattle, Mallee Wattle, Perennial Sunray, Purple Burr Daisy, Sifton Bush, Smooth Flax-lily, Spreading Flax-lily, Sticky Everlasting, Wedge-leaf Hop-bush, Western Silver Wattle, White Cypress Pine, Yellow Box	African Boxthorn, Annual Grasses, Black Locust, Paspalum, Peppercorn, St John's Wort, Sweet Briar	Grazing Roadside spraying.
Combaning Road 19 91 Left: High Right: High	North 0.8	Hopedale gate	Bent-leaf Wattle, Bush-pea, Dodder, Eastern Cottonbush, Five-spined Saltbush, Fuzzweed, Grey Box, Hakea Wattle, Mallee Bush-pea, Mallee Wattle, Sifton Bush, Sticky Everlasting, Wedge-leaf Hop-bush, White Cypress Pine	Annual Grasses	
Combaning Road 19 95 Left: Low Right: Low	North 1.3	To Leonards Lane	Eastern Cottonbush, Grey Box, Plains Speargrass, Wedge-leaf Hop-bush, White Cypress Pine	Annual Grasses	Firebreak on road reserve.

Road Name Junee Shire Road No Survey ID Conservation Value	Direction Section Length in km	Start and End points	Native Vegetation by Common Name	Introduced Plants by Common Name	Comments
Combaning Road 19 94 Left: Medium Right: Medium	North 2	Leonards Lane to Shire boundary	Bull-oak / Buloke, Eastern Cottonbush, Five-spined Saltbush, Grey Box, Hakea Wattle, Plains Speargrass, Sifton Bush, Wedge-leaf Hop-bush, White Cypress Pine, Yellow Box	Annual Grasses, Paterson's Curse	Firebreak on road reserve.
Commens Lane 28 24 Left: Low Right: Low	South 2.9	MR243 to lane end	Blakely's Red Gum, Varnish Wattle, Yellow Box	Annual Grasses, Lucerne Tree, Paspalum, Paterson's Curse, Peppercorn	Sprayed firebreak on left. Roadside planting of Lucerne Tree is invading roadside extensively.
Coursing Park Road 25 9 Left: Medium Right: Medium	North 4.3	Wagga boundary to Yathella Road	Blakely's Red Gum, Brush Wiregrass, Deane's Wattle, Fuzzweed, Kurrajong, Mat Rush, Plains Speargrass, Smooth Flax- lily, Spreading Flax-lily, Variable Speargrass, Wallaby Grass, Western Silver Wattle, White Box, Yellow Box	Almond, Black Thistle, Cocksfoot, Cootamundra Wattle, Dock, Horehound, Lucerne Tree, Narrow-leaf Clover, Paspalum, Paterson's Curse, Peppercorn, Phalaris, Poplar, St John's Wort, White Cedar, Wild Mignonette, Wild Oats, Wild Sage	
Coursing Park Road 25 8 Left: Medium Right: Low	North 1.6	Yathella Road to Strathmore Road	Corrugated Sida, Deane's Wattle, Fuzzweed, Kurrajong, Mat Rush, Red-leg Grass, Wallaby Grass, Western Silver Wattle, White Box, White Cypress Pine, Yellow Box	Black Thistle, Brome Grass, Catsear, Horehound, Narrow- leaf Clover, Paspalum, Paterson's Curse, Peppercorn, Skeleton Weed, Sow Thistle, St John's Wort, Sweet Briar, Variegated Thistle, Wild Oats	Old quarry now stabilised. Large Mat Rush on the southern end.
Coursing Park Road 25 6 Left: Low Right: Low	North 4.3	Strathmore Lane to Crudens Road	Blakely's Red Gum, Bluebell, Deane's Wattle, Fuzzweed, Hickory Wattle, Kurrajong, Mat Rush, Plains Speargrass, Red- leg Grass, Variable Speargrass, Wallaby Grass, Western Silver Wattle, White Box, Yellow Box, Yellow Buttons	Almond, Black Thistle, Blue Heliotrope, Brome Grass, Catsear, Paterson's Curse, Phalaris, Ryegrass, Skeleton Weed, Sow Thistle, St John's Wort, White Cedar, Wild Oats, Wild Sage	

Road Name Junee Shire Road No Survey ID Conservation Value	Direction Section Length in km	Start and End points	Native Vegetation by Common Name	Introduced Plants by Common Name	Comments
Cowled Lane 64 122 Left: Low Right: Low	North 1.3	Junee Reefs Road to lane end	Blakely's Red Gum, Eastern Cottonbush, Grey Box, Mat Rush, Peach Heath, Yellow Box	African Boxthorn, Almond, Annual Grasses, Paterson's Curse, White Cedar	
Craigs Lane 17 49 Left: Low Right: Low	West 0.9	Eurongilly Road to lane end	Northern Silver Wattle, White Box	Annual Grasses, Paterson's Curse	Very heavily grazed. Exotic trees planted adjacent to lane.
Crudens Road 21 56 Left: Low Right: Low	North 5.3	TR 57 to Cochranes Road	Blakely's Red Gum, Grey Box, Kurrajong, Plains Speargrass, Red-leg Grass, Tumbledown Gum, Wallaby Grass, Western Silver Wattle, White Box, White Cypress Pine, Yellow Box	African Boxthorn, Brome Grass, Catsear, Dock, Fig, Horehound, Paspalum, Paterson's Curse, Peppercorn, Phalaris, Small-flower Mallow, St John's Wort, Variegated Thistle, Wild Oats, Wild Sage	
Crudens Road 21 55 Left: Low Right: Low	West 4.5	Cochranes Road to Coursing Park Road	Grey Box, Hickory Wattle, Kurrajong, Plains Speargrass, Red-leg Grass, Sifton Bush, Wallaby Grass, White Box, Yellow Box	Barley Grass, Brome Grass, Catsear, Deciduous Tree, Evening Primrose, Horehound, Paspalum, Paterson's Curse, Peppercorn, Ryegrass, Small- flower Mallow, St John's Wort, Wild Oats, Wild Sage	
Danswans Lane 32 48 Left: Medium Right: Medium	North 6.5	Olympic Highway to Old Sydney Road	Eastern Cottonbush, Hickory Wattle, Kurrajong, Northern Silver Wattle, Plains Speargrass, Spreading Flax-lily, Western Silver Wattle, White Cypress Pine, Yellow Box	African Boxthorn, Annual Grasses, Black Locust, Blackberry Nightshade, Paterson's Curse, Phalaris, Sheep's Burr, St John's Wort, Wild Lettuce, Wild Radish, Wild Sage	Substantial exotic plantings in first 1 km. First 3.7km is low conservation value. Last 2.9km is relatively well treed with understorey and scattered weeds.

Roedigers Lane 109 101 Left: Low Right: Low	East 3.6	Aerodrome Lane to Girrawheen Lane	Kurrajong, Northern Silver Wattle, Plains Speargrass, Western Silver Wattle, White Box, Yellow Box	African Boxthorn, Almond, Annual Grasses, Olive, Paterson's Curse, Peppercorn, Pine	First half has no trees, and few on latter half.

Road Name Junee Shire Road No Survey ID Conservation Value	Direction Section Length in km	Start and End points	Native Vegetation by Common Name	Introduced Plants by Common Name	Comments
Sarafan Road 5 118 Left: Low Right: Low	North-west 10	Eulomo Settlement Road to Retreat Road	Blakely's Red Gum, Bluebell, Emu Bush, Five-spined Saltbush, Grey Box, Hakea Wattle, Plains Speargrass, Wedge-leaf Hop-bush, White Box, White Cypress Pine, Yellow Box	Annual Grasses, Peppercorn	Lane unfenced for much of its length.
Sherwood Lane 70 146 Left: Medium Right: Medium	North 3.4	Junee Reefs Road to Macaulays Lane	Drooping Wattle, Fuzzweed, Grey Box, Kurrajong, Mat Rush, Northern Silver Wattle, Plains Speargrass, Sifton Bush, Spreading Flax-lily, Wedge-leaf Hop-bush, Western Boobialla, Western Silver Wattle, White Cypress Pine, Yellow Box	African Boxthorn, Annual Grasses, Catsear, Cootamundra Wattle, Horehound, Paterson's Curse, Peppercorn, Wild Mignonette, Wild Sage	The most northern 500m is dense with good understorey and few weeds. Some very young gums appear to have been sprayed.
Snapes Lane 112 85 Left: Medium Right: Medium	South 3.7	Trevethin Lane to Old Sydney Road section	Climbing Saltbush, Creeping Saltbush, Drooping Wattle, Grey Box, Hakea Wattle, Mallee Wattle, Peach Heath, Showy Parrot-pea, Sifton Bush, Silver Cassia, Spreading Flax-lily, Varnish Wattle, Wedge-leaf Hop- bush, White Cypress Pine, Yellow Box, Yellow Buttons	Annual Grasses, Paterson's Curse, Peach, Peppercorn, Sweet Briar	Adjacent to area of thick trees with no understorey.
Stanyer Road 58 43 Left: Medium Right: Medium	West 3.6	Illabo village to Gregorys Lane	Amulla, Bindweed, Butterbush, Climbing Saltbush, Eastern Cottonbush, Five-spined Saltbush, Grey Box, Mallee Bush-pea, Mallee Wattle, Varnish Wattle, Wedge-leaf Hop- bush, Western Boobialla, White Box, White Cypress Pine, Yellow Box	African Boxthorn, Annual Grasses, Dock, Galvanised Burr, Paterson's Curse	Some areas very bare, suspect over grazing.

Road Name Junee Shire Road No Survey ID Conservation Value	Direction Section Length in km	Start and End points	Native Vegetation by Common Name	Introduced Plants by Common Name	Comments
Stanyer Road 58 44 Left: Medium Right: Medium	West 1.8	Gregorys Lane to Warnes Gate Lane North	Drooping She-oak, Drooping Wattle, Eastern Cottonbush, Five-spined Saltbush, Hakea Wattle, Mallee Wattle, Varnish Wattle, Wedge-leaf Hop-bush, Western Boobialla, White Cypress Pine, Yellow Box, Yellow Buttons	Annual Grasses, Paterson's Curse, Peppercorn	Roadworks on ridge.
Storeys Lane 113 45 Left: Low Right: Low	North 1.2	Stanyer Road to bend in road	Grey Box, Mallee Wattle	Annual Grasses, Paterson's Curse	Very narrow road reserve.
Storeys Lane 113 46 Left: Medium Right: Medium	North 0.9	Bend in road to end of wide road	Fuzzweed, Grey Box, Hakea Wattle, Mallee Bush-pea, Mallee Wattle, Mat Rush, Wedge-leaf Hop-bush, White Box, White Cypress Pine, Yellow Box	Annual Grasses, Paterson's Curse	
Storeys Lane 113 47 Left: Low Right: Low	North 1.4	End of wide road to Old Sydney Road	Fuzzweed, Grey Box, Mallee Bush-pea, Mallee Wattle, Wedge-leaf Hop-bush, Yellow Box	Annual Grasses, Paterson's Curse	
Strathbogie Lane 134 84 Left: Low Right: Low	South 4.5	Bartons Lane to Merv Turner Lane	Deane's Wattle, Eastern Cottonbush, Fuzzweed, Grey Box, Kangaroo Grass, Kurrajong, Plains Speargrass, Wallaby Grass, Western Silver Wattle, White Box, Yellow Box	Almond, Barley Grass Brome Grass, Olive, Paspalum, Paterson's Curse, Peppercorn, Sheep's Burr, St John's Wort, Sweet Briar, Wild Oats, Wild Sage	Native vegetation improves towards southern end.
Strathbogie Lane 134 67 Left: High Right: Medium	South 0.5	Merv Turners Lane to Murrulebale Road	Deane's Wattle, Fuzzweed, Kangaroo Grass, Plains Speargrass, Silver Wattle, White Box, Yellow Box, Yellow Buttons	Capeweed, Catsear, Evening Primrose, Horehound, Paspalum, Paterson's Curse	Links to TSR.

Road Name Junee Shire Road No Survey ID Conservation Value	Direction Section Length in km	Start and End points	Native Vegetation by Common Name	Introduced Plants by Common Name	Comments
Strathmore Road 114 7 Left: Low Right: Low	East 9.5	Coursing Park Road to Cochranes Road	Blakely's Red Gum, Corrugated Sida, Deane's Wattle, Hickory Wattle, Kurrajong, Mat Rush, Plains Speargrass, Red-leg Grass, Spreading Flax-lily, Tick Indigo, Western Silver Wattle, White Box, White Cypress Pine, Yellow Box	Almond, Brome Grass, Catsear, Cocksfoot, Exotic Creeper, Exotic Tree, Horehound, Olive, Paspalum, Paterson's Curse, Peppercorn, Poplar, Silver Grass, Skeleton Weed, St John's Wort, Wild Oats	Tick indigo on right hand side.
Strathmore Road 114 4 Left: Low Right: Low	East 5.4	Cochranes Road to Olympic Highway	Blakely's Red Gum, Corrugated Sida, Creeping Saltbush, Eastern Cottonbush, Kangaroo Grass, Kurrajong, Plains Speargrass, Red-leg Grass, Smooth Flax-lily, Spreading Flax-lily, Tick Indigo, Wallaby Grass, Western Silver Wattle, White Box, White Cypress Pine, Yellow Box, Yellow Buttons	African Boxthorn, Almond, Brome Grass, Catsear, Cocksfoot, Cootamundra Wattle, Horehound, Lucerne Tree, Paspalum, Peppercorn, Silver Grass, Skeleton Weed, St John's Wort, Sweet Briar, Wild Oats, Wild Sage, Wireweed	Tick indigo noted at two locations.
Summerhill Road 115 88 Left: Low Right: Low	South 5.5	Clear Hills Lane to 5.5km	Climbing Saltbush, Cootamundra Wattle, Deane's Wattle, Grey Box, Sifton Bush, Wedge-leaf Hop-bush, White Cypress Pine, Yellow Box	Annual Grasses, Dock, Paterson's Curse, Sweet Briar	Firebreaks on road reserve.
Summerhill Road 115 87 Left: Medium Right: Medium	West 2.3	5.5km to Combaning Road	Fuzzweed, Hakea Wattle, Hooked Needlewood, Mat Rush, Sifton Bush, Spreading Flax-lily, White Cypress Pine, Yellow Box	Annual Grasses, Horehound, Nectarine, Peppercorn, Scotch Thistle	<i>Hakea tephrosperma</i> (Only one found in Junee Shire east of Temora Road).
Talbingo Lane 119 58 Left: Low Right: Medium	East 3.8	Lane end to TR57	Blakely's Red Gum, Bluebell, Butterbush, Fuzzweed, Kurrajong, Mat Rush, Northern Silver Wattle, Plains Speargrass, Variable Speargrass, Wallaby Grass, White Box, White Cypress Pine, Yellow Box	African Boxthorn, Almond, Brome Grass, Clover, Dock, Horehound, Onion Grass, Paspalum, Paterson's Curse, Ryegrass, Sheep's Burr, Small-flower Mallow, St John's Wort, Variegated Thistle, Wild Oats, Wild Sage	Some grassy understorey, mostly dense annual weeds.

Road Name Junee Shire Road No Survey ID Conservation Value	Direction Section Length in km	Start and End points	Native Vegetation by Common Name	Introduced Plants by Common Name	Comments
Tenandra Road 132 39 Left: Low Right: Low	South-east 0.5	River Road to Shire boundary	River Red Gum	Annual Grasses, Black Locust, Chicory, Paspalum, Paterson's Curse, Purpletop, Willow	
Trevethin Road 118 112 Left: High Right: High	East 7.6	Retreat Road to Rosebank mail box	Bent-leaf Wattle, Bluebell, Climbing Saltbush, Creeping Saltbush, Cut-leaf Goodenia, Deane's Wattle, Drooping Wattle, Eastern Cottonbush, Feather Speargrass, Five-spined Saltbush, Grey Box, Hakea Wattle, Hickory Wattle, Kurrajong, Mallee Bush-pea, Mallee Wattle, Mat Rush, Native Blackthorn / Sweet Bursaria, Pepper-leaf Senna, Sifton Bush, Smooth Flax-lily, Spreading Flax-lily, Varnish Wattle, Wedge- leaf Hop-bush, Western Boobialla, Western Silver Wattle, White Box, White Cypress Pine, Yellow Box, Yellow Buttons	African Boxthorn, Almond, Garden Escapes, Sweet Briar	Roadside plantings.
Trevethin Road 118 111 Left: Low Right: Low	South 0.8	Rosebank mail box to Old Sydney Road	Bent-leaf Wattle, Grey Box, Hakea Wattle, Mallee Wattle, Yellow Box	Annual Grasses, Dock, Paspalum, Sweet Briar	
Trunk Road 57 57 71 Left: Medium Right: Medium	South 6.6	Temora Boundary to Pump Station	Blakely's Red Gum, Deane's Wattle, Fuzzweed, Grey Box, Kurrajong, Plains Speargrass, Purple Burr Daisy, Sifton Bush, Spreading Flax-lily, Sticky Everlasting, Twiggy Bush-pea, Wedge-leaf Hop-bush, Western Silver Wattle, White Box, White Cypress Pine, Yellow Box	Almond, Brome Grass, Exotic Tree, Horehound, Paspalum, Paterson's Curse, Sheep's Burr, Wild Oats	

Road Name Junee Shire Road No Survey ID Conservation Value	Direction Section Length in km	Start and End points	Native Vegetation by Common Name	Introduced Plants by Common Name	Comments
Trunk Road 57 57 72 Left: Medium Right: Medium	South 4	Pump Station to Combaning Road	Clustered Everlasting, Eastern Cottonbush, Fuzzweed, Purple Burr Daisy, Sifton Bush, Spreading Flax-lily, Wallaby Grass, Western Silver Wattle, White Cypress Pine, Wiregrass, Yellow Box,	Exotic Tree, Paspalum, Paterson's Curse, Peppercorn, Wild Oats	Grader damage at property entrances.
Trunk Road 57 57 73 Left: Medium Right: Medium	South 3.2	Combaning Road to Coffin Rock Road	Plains Speargrass, Purple Burr Daisy, Wallaby Grass, Western Silver Wattle, White Box, Yellow Box	Brome Grass, Horehound, Paspalum, Paterson's Curse, Pine, Succulents / Cacti, Wild Oats	Firebreaks on road reserve.
Turners Lane 110 62 Left: Medium Right: Medium	South 4.8	Murrulebale Road to MR243	Chocolate Lily, Deane's Wattle, Fuzzweed, Juniper Wattle, Kangaroo Grass, Kurrajong, Mat Rush, Northern Silver Wattle, Plains Speargrass, Red-leg Grass, Spreading Flax-lily, Western Silver Wattle, White Box, White Cypress Pine	Black Thistle, Brome Grass, Lucerne Tree, Paspalum, Paterson's Curse, Sheep's Burr, Sweet Briar, Wild Oats	Good grass cover on wider areas. Locally rare wattle - <i>Acacia ulicifolia</i> .
Unnamed Lane 0 20 Left: Low Right: Low	3	Baylis Lane to Cartwrights Lane	Grey Box, Hairy Panic, Hickory Wattle, Kurrajong, Mat Rush, Plains Speargrass, Red-leg Grass, Spreading Flax-lily, Variable Speargrass, Wallaby Grass, White Box, White Cypress Pine, Yellow Box	Blue Heliotrope, Brome Grass, Common Heliotrope, Deciduous Tree, Firethorn, Horehound, Lucerne Tree, Paterson's Curse, Wild Oats	Cultivated firebreak on road reserve. Blue Heliotrope.
Victoria Farm Lane 106 126 Left: Low Right: Low	South 1.6	Old Sydney Road to lane end	Blakely's Red Gum, Climbing Saltbush, Hickory Wattle, Kurrajong, Plains Speargrass, Spreading Flax-lily, White Box, Yellow Box, Yellow Buttons	Annual Grasses, Lucerne Tree, Paterson's Curse, Peppercorn	Lane ends at a fenced, unnamed road with many good large trees. Overgrazing apparent.

Road Name Junee Shire Road No Survey ID Conservation Value	Direction Section Length in km	Start and End points	Native Vegetation by Common Name	Introduced Plants by Common Name	Comments
Walbridge Lane 61 34 Left: Low Right: Low	North 3	Allawah Road to Langwell Lane	Grey Box, Hakea Wattle, Kurrajong, Mallee Wattle, White Cypress Pine	African Boxthorn, Annual Grasses, Exotic Tree, Paterson's Curse	Small eucalypts sprayed.
Walbridge Lane 61 32 Left: Medium Right: Medium	West 0.9	Langwell Lane to bend in road turning north	Grey Box, Mallee Wattle, Wedge-leaf Hop-bush, Western Boobialla, White Cypress Pine, Yellow Box	Annual Grasses, Paterson's Curse	
Walbridge Lane 61 33 Left: Low Right: Low	North 1.3	Bend in road turning north to Olympic Highway	Cootamundra Wattle, Grey Box, Hakea Wattle, Mallee Wattle, Yellow Box	Annual Grasses, Paterson's Curse, Peppercorn	
Wantabadgery Road 124 172 Left: Low Right: Low	South 6.1	Oivi Lane to Oura Road	Blakely's Red Gum, Hickory Wattle, Plains Speargrass, Red- leg Grass, Wallaby Grass, White Box	Almond, Annual Grasses, Chicory, Dock, Paspalum, Paterson's Curse, Poplar, St John's Wort, Variegated Thistle, White Cedar, Wild Oats, Willow	Few trees
Wantabadgery Road 124 195 Left: Medium Right: Medium	North 4	Oivi Lane RLPB reserve (Doyle's)	Apple Box, Australian Trefoil, Blakely's Red Gum, Common Reed, Hickory Wattle, Kurrajong, Plains Speargrass, Red-leg Grass, Wallaby Grass, Yellow Box	Amsinckia, Apple, Barley Grass, Brome Grass, Chicory, Dock, Great Brome, Horehound, non-local Wattle, Olive, Paspalum, Paterson's Curse, Peppercorn, Small- flower Mallow, St John's Wort, White Cedar, Wild Oats, Willow	Roadside width variable. Firewood removal from mid section. <i>Lotus australis</i> 100m north of Coolalia gate.
Wantabadgery Road 124 194 Left: Low Right: Low	North 5.2	RLPB Reserve (Doyle's) to MR 243	Apple Box, Grey Box, Northern Silver Wattle. Plains Speargrass	Dock, Great Brome, Nectarine, Paspalum, Paterson's Curse, Poplar, St John's Wort, Wild Oats, Willow	Major planting of non- local natives. Ploughed firebreak on road reserve.

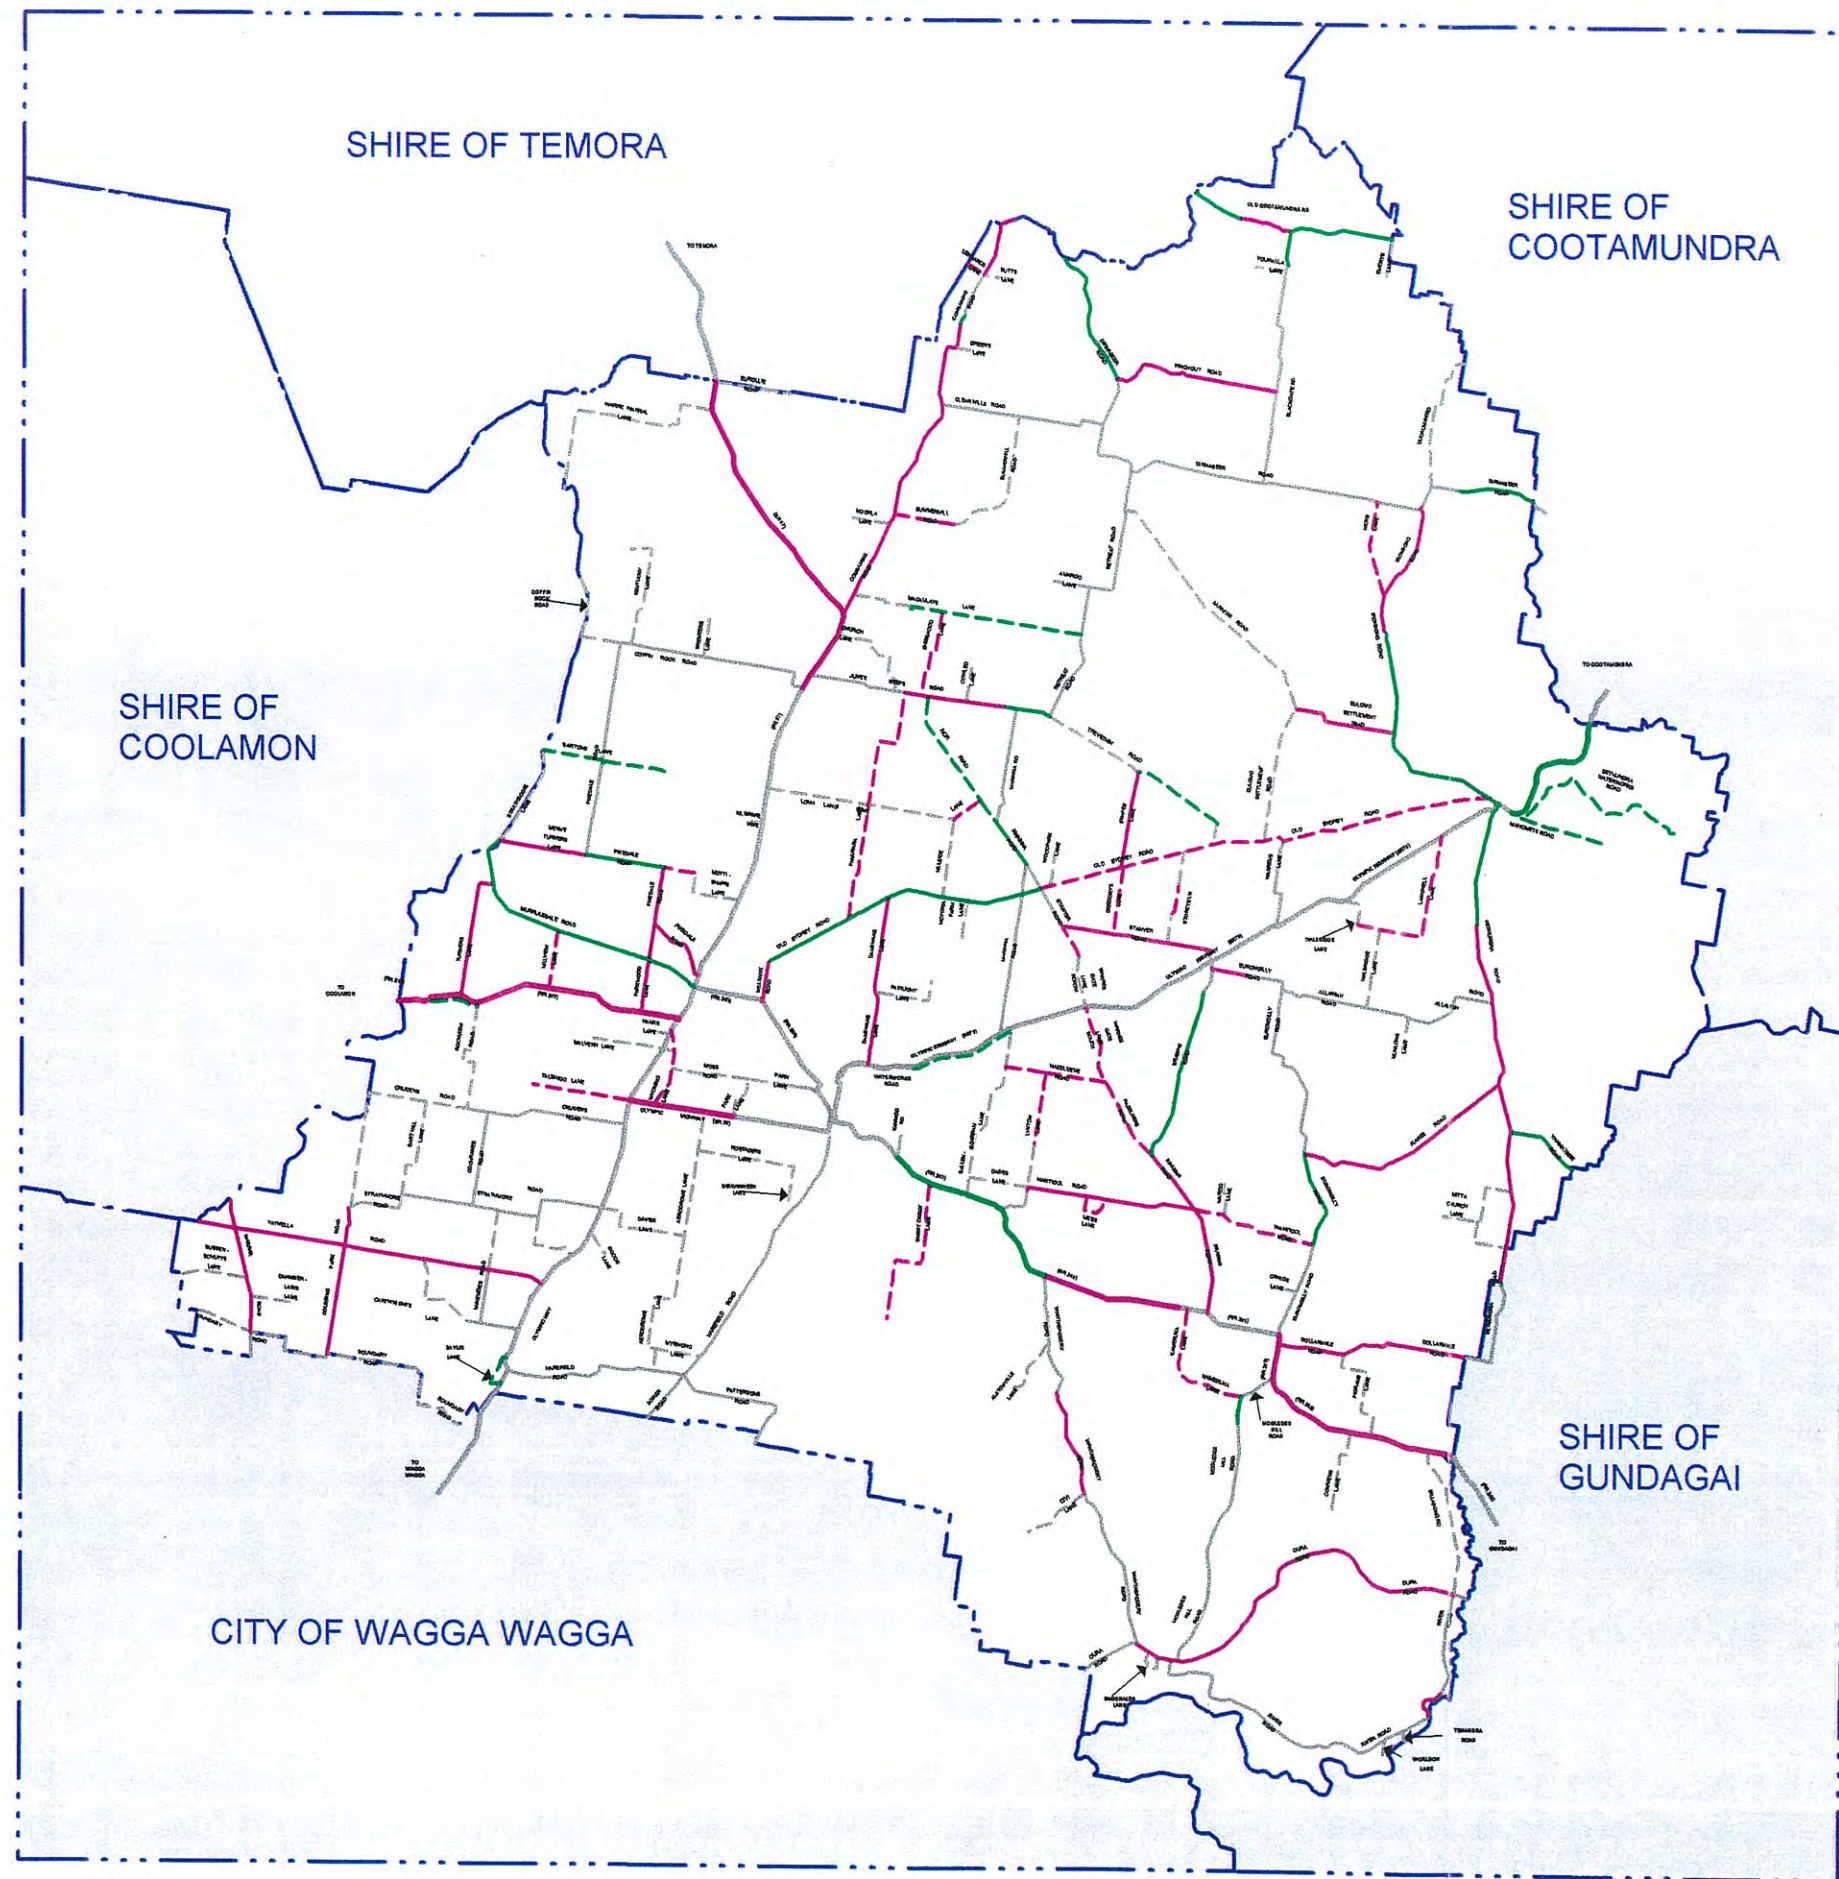

Road Name Junee Shire Road No Survey ID Conservation Value	Direction Section Length in km	Start and End points	Native Vegetation by Common Name	Introduced Plants by Common Name	Comments
Wantiool Road 68 178 Left: Low Right: Low	East 1.7	RR 243 to Oades Lane	Blakely's Red Gum, Kurrajong, Yellow Box	Annual Grasses, Dock, Lucerne Tree, Onion Grass, Paspalum, Paterson's Curse, Peach, Peppercorn, Phalaris, Pine, Privet, St John's Wort, White Cedar, Wild Oats	Non-local natives planted on road reserve.
Wantiool Road 68 187 Left: Medium Right: Medium	East 6.3	Oades Lane to Brabins Road	Blakely's Red Gum, Bluebell, Fuzzweed, Hickory Wattle, Kurrajong, Mat Rush, Plains Speargrass, Red-leg Grass, Sifton Bush, Slender Rice Flower, Smooth Flax-lily, Spreading Flax-lily, Varnish Wattle, Wallaby Grass, Western Silver Wattle, White Box, White Cypress Pine, Yellow Box, Yellow Buttons	African Boxthorn, Almond, Annual Grasses Blackberry, Catsear, Cocksfoot, Dock, Hawthorn, Lucerne Tree, Onion Grass, Paspalum, Paterson's Curse, Peach, Peppercorn, Phalaris, Pine, Sheep's Burr, St John's Wort, Sweet Briar, Wild Oats, Wild Sage	At 2.8km from Oades lane a small section is 40m wide.
Wantiool Road 68 180 Left: Medium Right: Medium	East 4.7	Brabins Road to Eurongilly Road	Blakely's Red Gum, Fuzzweed, Grey Box, Red-leg Grass, Varnish Wattle, Wallaby Grass, White Cypress Pine, Yellow Box	Annual Grasses, Black Thistle, Capeweed, Catsear, Dock, Horehound, Lucerne, Onion Grass, Paspalum, Paterson's Curse, Peppercorn, Ryegrass, Sheep's Burr, St John's Wort, Wild Oats, Wild Sage	
Waroo Lane 121 179 Left: Low Right: Low	North 1.5	Wantiool Road to end of lane	Fuzzweed, Grey Box, Plains Speargrass, Red-leg Grass, Varnish Wattle, Wallaby Grass, White Cypress Pine, Yellow Box	African Boxthorn, Annual Grasses, Black Thistle, Capeweed, Horehound, Onion Grass, Paterson's Curse, Sheep's Burr, Sorrel, St John's Wort, Wild Oats, Wild Sage	
Warre Warral Road 122 1 Left: Low Right: Low	West 9.4	TR 57 to Shire Boundary	Black Cypress Pine, Grey Box, Red-leg Grass, Varnish Wattle, Western Silver Wattle, White Box, Yellow Box	Briza, Brome Grass, Capeweed, Cotoneaster, Paspalum, Paterson's Curse, Phalaris, Sheep's Burr, Wild Oats	Higher conservation value sections from 5.4km (300m), Southern end (300m).

Road Name Junee Shire Road No Survey ID Conservation Value	Direction Section Length in km	Start and End points	Native Vegetation by Common Name	Introduced Plants by Common Name	Comments
Warrens Lane 123 48 Left: Low Right: Low	South 3	Old Sydney Road to Olympic Highway	Five-spined Saltbush, Grey Box, Mallee Wattle, River Red Gum, Western Silver Wattle, White Cypress Pine, Yellow Box	Annual Grasses, Cootamundra Wattle, Horehound, Paterson's Curse	
Waterworks Road 43 204 Left: Low Right: High	West 4.1	Ballengoarrah Lane to Waterworks	Austral cranesbill, Blakely's Red Gum, Curly Windmill Grass, Cut- leaf Goodenia, Deane's Wattle, Fuzzweed, Kangaroo Grass, Kurrajong, Northern Silver Wattle, Plains Speargrass, Sifton Bush, Spreading Flax-lily, Variable Speargrass, Wallaby Grass, Western Silver Wattle, White Box, Yellow Box, Yellow Buttons	African Boxthorn, Almond, Annual Grasses, Blackberry Nightshade Capeweed, Cotoneaster, Dock, Evening Primrose, Lucerne, Paspalum, Paterson's Curse, Peppercorn, Pine, Plantain, Sheep's Burr, St Barnaby's Thistle, St John's Wort, Sweet Briar, Vetch, White Cedar, Wild Mignonette, Wild Oats, Wild Sage	Herb diversity. Excellent Kangaroo Grass. Table drain in poor position through Kangaroo Grass.
Worldon Lane 133 40 Left: Low Right: Low	South 0.5	River Road to lane end	River Red Gum, Yellow Box	Annual Grasses, Black Locust, Sweet Briar	
Wornes Gate Lane North 128 140 Left: Low Right: Low	North 2.1	Olympic Highway to 2.1km	Grey Box, Mat Rush, Plains Speargrass, Wallaby Grass, Western Silver Wattle, Yellow Box, Yellow Buttons	Annual Grasses, Capeweed, Horehound, Olive, Paterson's Curse, Sheep's Burr, St John's Wort	Note first kilometre - good remnant trees on adjacent land. At 21.0km road dump and road debris on right.
Wornes Gate Lane North 128 139 Left: Medium Right: Medium	North 1.2	2.1km to Stanyer Road	Blakely's Red Gum, Daisy, Drooping Wattle, Hakea Wattle, Mallee Wattle, Mat Rush, Purple Burr Daisy, Spreading Flax-lily, Tall Bluebell, Wedge-leaf Hop- bush, Western Boobialla, White Box, White Cypress Pine, Yellow Buttons	Annual Grasses	Threatened fauna species - Apostle bird, Grey Crown Babbler, Chough. Grazing throughout.

Road Name Junee Shire Road No Survey ID Conservation Value	Direction Section Length in km	Start and End points	Native Vegetation by Common Name	Introduced Plants by Common Name	Comments
Wornes Gate Lane South 56 131 Left: Medium Right: Medium	North 3	Hazeldene Road to Olympic Highway	Bindweed, Blakely's Red Gum, Cut-leaf Goodenia, Eastern Cottonbush, Grey Box, Kurrajong, Mallee Wattle, Mat Rush, Northern Silver Wattle, Plains Speargrass, Smooth Flax- lily, Spreading Flax-lily, Yellow Box, Yellow Buttons	Annual Grasses, Paterson's Curse, Peppercorn, Variegated Thistle	Grey Crowned Babblers' nests common on southern end. Scattered firewood removal. Stock grazing on southern end.
Wyoming Lane 120 104 Left: Medium Right: Low	North 2.9	Olympic Highway to TR 57	Corrugated Sida, Couch Grass, Eastern Cottonbush, Grey Box, Kurrajong, Pepper-leaf Senna, Plains Speargrass, Red-leg Grass, Wallaby Grass, Yellow Box, Yellow Wood-sorrel	African Boxthorn, Blackberry Nightshade, Brome Grass, Catsear, Horehound, Narrow- leaf Clover, Paspalum Paterson's Curse, Pine, Skeleton Weed, St John's Wort, Sweet Briar, Twigg Mullein, Wild Oats, Wild Sage	Last 800m very wide (greater than 200m) Good tree cover and tussock areas and some regeneration. Non-local native species on roadside.
Yammatree Road 130 198 Left: High Right: High	South-east 2.9	Bethungra Road to Gundagai Shire boundary	Bottlewashers, Climbing Saltbush, Corrugated Sida, Creeping Saltbush, Drooping She-oak, Eastern Cottonbush, Fuzzweed, Golden Wattle, Grey Box, Hakea Wattle, Hickory Wattle, Kurrajong, Mallee Bush- pea Narrow-leaf Hop-bush, Nodding Blue Lily, Plains Speargrass, Smooth Flax-lily, Spreading Flax-lily, Tumbledown Gum, Varnish Wattle, Wallaby Grass, Wedge-leaf Hop-bush, Western Silver Wattle, White Box, White Cypress Pine	African Boxthorn, Annual Grasses, Horehound, Paterson's Curse, Peppercorn, St John's Wort	Firewood removal evident. Indiscriminant tree control on roadside.

Road Name Junee Shire Road No Survey ID Conservation Value	Direction Section Length in km	Start and End points	Native Vegetation by Common Name	Introduced Plants by Common Name	Comments
Yathella Road 11 18 Left: Medium Right: Medium	West 11.9	Olympic Highway to Marrar Road	Blakely's Red Gum, Bluebell, Corrugated Sida, Curly Windmill Grass, Deane's Wattle, Fuzzweed, Glycine, Hickory Wattle, Kangaroo Grass, Kurrajong, Mat Rush, Pepper- leaf Senna, Plains Speargrass, Red-leg Grass, Smooth Flax-lily, Spreading Flax-lily, Variable Speargrass, Wallaby Grass, Western Silver Wattle, White Box, White Cypress Pine, Willow Herb, Yellow Box, Yellow Buttons	Almond, Blue Heliotrope, Brome Grass, Catsear, Cootamundra Wattle, Deciduous Tree, Garden Escapes, Horehound, Paspalum, Paterson's Curse, Peppercorn, Skeleton Weed, Variegated Thistle, White Cedar, Wild Lettuce, Wild Lettuce, Wild Mignonette, Wild Oats, Wild Radish, Willow	Blue Heliotrope on ploughed firebreak. Good flax lily patches. Kangaroo Grass western end. Many almonds on eastern end. <i>Acacia implexa</i> eastern end. Yathella Hall - good Grassy Box Woodland site.
Yathella Road 11 17 Left: Low Right: Medium	West 3.3	Marrar Road to Coolamon Boundary	Blakely's Red Gum, Bluebell, Bottlewashers, Climbing Saltbush, Creeping Saltbush, Curly Windmill Grass, Deane's Wattle, Eastern Cottonbush, Fuzzweed, Golden Wattle, Grey Box, Mat Rush, Plains Speargrass, Smooth Flax-lily, Wallaby Grass, White Box, White Cypress Pine, Yellow Box	Almond, Black Thistle, Brome Grass, Horehound, Lucerne Tree, Paspalum, Paterson's Curse, Peppercorn, Ryegrass, Sweet Briar, Wild Oats, Wild Sage	Parrots nesting. Minor firewood removal.
Youralla Lane 129 160 Left: Low Right: Low	West 2	Blackgate Road to Lane end	Eastern Cottonbush, Mat Rush, Plains Speargrass, Red-leg Grass, Sifton Bush, White Box, White Cypress Pine	Annual Grasses, Catsear, Onion Grass Paspalum, Paterson's Curse, Sorrel, St John's Wort, Wild Sage

Junee Shire Roadside Vegetation Survey Assessment Sheet

Road Name..... Road No.....Date.....
 Assessor..... Direction of travel
 Reference point..... Start odometer reading.....
 Start point..... End odometer reading.....
 End point..... Length of section.....
 Road type(circle): highway, main road, secondary road, minor- bitumen, minor- gravel, track,
 unused road, private road

B. Width of roadside reserves

Tick one line for each side Score L R

1-5 metres	1
6-21 metres	2
21+ metres	3

C. Condition of indigenous vegetation

tick one line for each side Score L R

Degraded (eg mainly weeds)	1
Modified (eg little understorey)	2
Near natural (eg few weeds, understorey + trees)	3

D. Introduced plants/environmental weeds

Circle main weed types:

Grasses shrubs trees

Tick one line for each side Score L R

Dominant	1
Scattered throughout	2
Isolated clumps	3
Few or none	4

E. Regeneration

Are there young native plants present?

Tick one line for each side Score L R

None	1
Slight	2
Moderate	3
Extensive	4

F. Potential wildlife habitat

Insert score of 2 when Score L R
 features are common

Trees	2
Trees with hollows	2
Native understorey	2
Logs/litter	2
Wet/marshy/creek	2
Rocks/crevices	2

Max. value 5 each side
